**2019 COMMUNITY CANCER NEEDS ASSESSMENT**

## External Data Sources

**American Community Survey (ACS), United States (U.S.) Census Bureau:** ACS is a nationally representative sample of households that are randomly selected to participate. This survey provides population estimates of demographic information for various geographic areas.

**Behavioral Risk Factor Surveillance System (BRFSS), Centers for Disease Control and Prevention (CDC):** BRFSS is a representative survey of adults in all states that collects data about health-related risk behaviors, use of preventative services and chronic health conditions.

**County Health Rankings, National Center for Health Statistics:** This resource compiles and calculates county-level community health data from a variety of sources, including estimates of life expectancy based on data from the National Vital Statistics System.

**Healthy People 2020, U.S. Department of Health and Human Services:** Healthy People 2020 provides science-based, 10-year national objectives for improving the health of all Americans. Healthy People 2020 establishes benchmarks and monitors progress over time.

**National Immunization Survey-Teen (NIS-Teen), CDC:** NIS-Teen is an annual, nationally-representative phone survey that collects immunization information on adolescents aged 13-17 years living in the U.S. and verifies immunization histories from healthcare providers.

**State Cancer Profiles, CDC and National Cancer Institute:** This data resource includes cancer incidence and mortality data for each state from CDC's National Program of Cancer Registries Cancer Surveillance System and the National Vital Statistics System.

**U.S. Small-area Life Expectancy Estimates Project (USALEEP), (CDC):** USALEEP provides estimates of life expectancy at birth for states and most census tracts in the U.S.

**Youth Risk Behavior Surveillance System (YRBSS), CDC:** YRBSS is a self-administered national school-based survey system that collects data regarding health-related risk behaviors among 9<sup>th</sup> through 12<sup>th</sup> grade students.

**Note:** The page number(s) listed with for each table refer to the page number(s) in the main report document.
